We work with our clients from the initial design to the completion of the project. Our staff is on site to ensure your landscape is completed properly. If you are looking for a reliable and experienced landscape contractor or consultant in Dubai, then its Green Creation Landscaping for sure.

Garden Landscaping

Green Creation Landscaping Dubai offers clients beautiful garden landscaping and expert garden maintenance services for all sizes of gardens whether residential or commercial across Dubai, UAE. We work collaboratively with our UAE clients, listening to their needs, to ensure that the garden design brief is clear and is interpreted correctly in the finished plan. Our aim is to reflect as closely as possible the styling, decoration and colour palette of the client's need so that there is a strong visual relationship between the inside and outside spaces. We regularly work closely with architects and interior designers to ensure that this is achieved.

Landscape Services Include:

- New Construction - Installation - Trees & Plants
- Annual Mulching & Bed Care - Sod Color Changes

Hard Landscaping

Define your outdoor space and bring symmetry between the house and garden with hard elements. Give your landscape distinction with pavers, stonescapes and outdoor structures. When designed with vision and style, hardscapes create functionality while beautifying the architecture of your home into the outdoor environment.

Green Creation Landscaping Dubai hardscapes are works of art. Each unique design uses color, texture and dimension to bring one-of-a-kind elegance to the finished project. Our crews have hands-on experience installing concrete – stamped and colored, stonewalls, patios, paved pathways, flagstone and boulders.

Hardscaping Services Include:

- Stonescapes - Paver & Stone Work - Patios
- Walkways - Retaining Walls - Stacked Stone Walls
- Terraces - Pool Decks - Driveways
- Concrete - Wood Decks - Arbors
- Samaya International LLC - Abu Dhabi, U.A.E
- Handled all employee for time off requests and grievances.

SWIMMING POOL

We design & build swimming pools in Dubai without compromise. We are specialists in residential and commercial swimming pool construction, swimming pool maintenance, swimming pool repair and swimming pool servicing in Dubai. We offer turnkey solutions, taking care of every single aspect of construction or we work as a sub-Contractor when required. We work closely with clients and architects, discuss the pool concept, agree every detail of the project, and provide precise costs for all components. This approach ensures that we deliver exactly what is required at the agreed budget. Every pool we build in Dubai receives the same individual care and attention and is built to the very highest standard. Through our dedicated approach and technical expertise we are confident that we can offer you a superior swimming pool construction and maintenance service throughout Dubai, UAE.

Swimming Pool Construction in Dubai

Green Creation Landscaping Dubai is capable to carry out all the work with our sub-Contractors using quality construction methods and superior construction materials, our skilled sub-contractor engineers can create excellent Swimming Pools, both commercial and residential, that are supreme in beauty, quality and strength.

When we build your swimming pool, we consider carefully the environment in which the pool is to be built and, when construction begins, we follow a strict developmental strategy. We are conversant with the rapid changes taking place with technological innovations, new ideas and products being applied to swimming pools and their environment. Critically, we understand the need to meet new challenges of energy conservation and low energy consumption on installations.

What is the environment telling you?. Consider the following:

Sun and shadow position during the day.

Location of existing trees, leaves and possible rooting systems.

Landscaping.

Pool safety.

Existing electrical cables.

Existing water pipes.

Existing sewerage lines.

Swimming Pool Repair / Maintenance in Dubai

Green Creation Landscaping Dubai understands it is not economical to drain and refill a swimming pool. If any repairs or maintenance works are required beneath water level - such as tiling, grilles, moveable floor and boom systems - we can provide commercial divers to carry out the works without any disruption. All of our divers are trained and qualified swimming pool engineers; they therefore have the experience and knowledge to identify any problems and rectify them. We can confidently affirm that with our expert knowledge of sanitation and swimming pool maintenance our clients will be left enjoying all the benefits of a clear and clean swimming pool all year round.

Our regular pool care service lets you choose between weekly, fortnightly or monthly where we will:

- Scoop leaves from water surface
- Vacuum pool floor
- Brush waterline tiles
- Empty cleaner, skimmer and pump baskets
- Test water for chlorine, pH, alkalinity levels
- Conduct other tests as required
- Adjust water level
- Backwash filter
- Clean salt chlorinators and injection points for liquid chlorinators
- Check equipment to ensure it works correctly
- Supply chemicals in the correct amounts

We supply parts and carry out quality repairs to all pool equipment including:

- Pumps.
- Cleaners.
- Filters.
- Solar and electrical heaters.
- Chlorinators.
- Pool covers and accessories.
- Plumbing.
- Pool Tile Repair.
- Leak Detection.

IRRIGATION

Dubai is situated in a desert and without a properly designed and functioning irrigation system most plants would not last more than a day without water in peak summer. Our irrigation system provides adequate water based on plant water requirements. Water requirement may vary depending on plant size, type, turf grass area and other environmental factors.

Green Creation Landscaping engineers will study each landscape project to assess the amount of water requirement and accordingly design appropriate irrigation system for the project. Whether to be full automatic system, semi-automatic or other types. We have local experience and exposure to the latest technologies has equipped Green Creation Landscaping with the knowledge to undertake all works related to specialized irrigation designs such as site surveys, preparation of plans, irrigation concepts, detailed plans, installation details, hydraulic calculations, bills of quantities and detailed specifications.

We design irrigation systems for all types of landscape projects, from villas to large public parks. Water conservation is the main criteria of all Irrigation designs. And we used highest quality materials installed by trained professionals.

LIGHTING

Landscape Lighting can transform a property at night while highlighting special features- conversation areas, fountains, walkways and more. Evening lighting is also essential for safety along paths and for all-season enjoyment of a garden.

Whatever your outdoor lighting desires are, Green Creation Landscaping Dubai can create something special for you. Our acclaimed designers create nightscapes that enhance the natural beauty of your garden and highlight the beauty of your home. Whether it's for entertaining, relaxation or safety, extend the enjoyment of your landscape well into the evening with a well-designed, lovely nightscape. The right landscape lighting allows you to derive the full benefits of your costly landscaping after the sun goes down. It also provides better safety and security in Dubai.

Lighting Services Include:

- Path, Spot and Area Lighting - Shadowing and Silhouetting.
- Architectural and Plant Accenting - Up or Down Lighting.
- Grazing and Moon Lighting - Safety and Security Illumination.

WATER FEATURES

Turn your backyard into a peaceful retreat with the soothing sound and movement of water. Whether it's a waterfall, pond, stream, fountain, colorful fish or water lilies, we can help you create a slice of paradise in your own backyard. Each water feature designed and created by Green Creation Landscaping Dubai is a unique concept combining natural stone material and water plants. We integrate your interests and desires with the beautiful accent of nature. These breathtaking displays of the natural environment provide years of enjoyment from the relaxing sight and sound of moving water, beautiful fish and plants.

Water Feature Services include:

Ponds - Waterfalls.
Streams - Fountains.
Illumination - Selection of aquatic plants and fish.

PERGOLA & GAZEBO

Extend your living area from indoors to outdoors with an outdoor room. It could be one of the best investments you will ever make. For those with small spaces, an outdoor room might mean adding a little shady oasis, pergola or gazebo. For others it might mean creating a fire pit, gourmet outdoor kitchen, cabana or bridge. More than just a patio or deck, outdoor additions can become a favorite gathering spot for family and friends. Whatever you imagine, Green Creation Landscaping can create it.

Outdoor Room Services include:

- Outdoor Kitchens - Pergolas and Trellises - Outdoor Fireplaces
- Outdoor Dining Rooms - Gazebos – Bridges

MAINTENANCE

Proper maintenance of every garden commercial or residential especially the newly made landscape is important for the success and healthy growth of garden plants. Young plants are very delicate and can be attacked by various insects or diseases. Therefore, they should be looked after properly, sprayed adequately and given fertilizers and other nutritional requirements when needed. Trees and shrubs also should be pruned and grass must be mowed on time, as well as being raked or aerated once or twice per year. Irrigation system also should be checked, sprinkles and drippers must be cleaned to give uniform and adequate watering where needed. All these services are well taken care by Green Creation Landscaping professional maintenance team in every project.
